New Computer Systems

Better.Business.Solutions has assembled custom computer systems since 1989. Offering systems from both the Intel & AMD processor lines, Better.Business.Solutions will work with you to build the system that you need. If you need brand name we also are a Hewlett Packard / Compaq Partner and a Dell Value Added Reseller. All of our systems are built to last and carry a one year warranty on parts and labor (this warranty can be extended for additional cost). Delivery and setup of the system is available to locations within the Central Susquehanna Valley.

Computer Service and Upgrade

We offer service both onsite and at our offices. Service is available during regular business hours, or we are able to arrange service at other times by appointment. We will service all makes and models, including Dell, HP, Compaq, Sony, Gateway, Toshiba and custom-built computers.

Site Administration

Better.Business.Solutions will assist you in administrating all of your information technology needs in the small to medium sized business. Because you don't have full time technology staff doesn't mean you can't have access to new technology resources. Let us help you design and setup your servers and networks, configure high speed internet throughout your business, plan for disaster recovery, or integrate an informational or commercial merchant website.

Custom Software

Need a program to do something, but can't seem to find it? Better.Business.Solutions will write a custom program to suit your needs. We develop in the latest Microsoft Visual .Net Languages, so all your programs will be Microsoft Windows compatible.

We will develop new software that works independently of other software or interface our software with your favorite software package. Also, we will modify existing programs, if the source code to the program is available.

Custom software by Better.Business.Solutions provides a clear understandable solution that fits your exact needs and desires. Examples of software that we have developed are described in the next section. Pricing is done on an individual basis. If you are interested in obtaining more information or talking with a company representative, please feel free to contact us at (570) 275-5844.

Our Software

Better.Business.Solutions has developed a variety of programs to suit various companies:

Better.Contract.Software:

Generates contracts based on answers to customizable questions.

Better.I.S.Tracker:

Tracks project and hardware inventory needs for a small to medium sized information systems department

Better.Library.Software:

Creates and maintains records of books, audio, and video recordings

Better.Shop.Floor:

Complete shop floor control package, which covers cutting, assembly, and shipping stations

Better.Time.Tracker:

Distributed time card management with centralized gathering of data for use in 3rd party payroll or job cost packages.

Offsite HelpDesk

Better.Business.Solutions provides both telephone and Internet HelpDesk for the small to medium size organization. Our HelpDesk allows various individuals within the organization to seek support on standard software packages and predefined specialized software.

Website Development

Better.Business.Solutions provides custom website design for all types of organizations. We strive to develop websites that can be easily updated by our clients directly. In other words, with an e-commerce website, our clients can change the descriptions, prices, and names of items, without contacting us. Layout changes or other major changes still require our intervention, but the site allows the client to make changes on their schedule.

Better.Business.Solutions handles every aspect of development from domain name registration (www.yourname.com) to website hosting (the physical location of your data). We also work with existing sites, to redesign or correct problems.
